| Net Operating Revenue | J\$18.14 billion |
|-------------------------|------------------|
| Net Interest Income | J\$8.13 billion |
| Net Profit | J\$1.83 billion |
| Earnings per Stock Unit | J\$0.84 |

GROUP CEO'S COMMENTARY

The JMMB Group Limited posted net profit of J\$1.83B and earnings per share of \$0.84cents for the nine-months ended December 31, 2024.

JMMB Group delivers creditable performance

JMMB Group for the nine-month period ending December 31, 2024, achieved a creditable performance delivering net profit of J\$1.83B.

The JMMB Group's financial performance continues to improve as evidenced in the October to December 2024 quarter. Even though for the first six months of the financial year, the Group reported operating loss of J\$570M, there was marked rebound in the third quarter resulting in year-to-date operating profit of J\$379M. Additionally, Q2 YTD net profit improved by 164% from J\$696M to J\$1.83B in Q3 YTD.

The JMMB Group's strategic investment in Sagicor Financial Company (SFC) also continues to be accretive to the Group, contributing J\$1.76B to share of profit for the nine-month ending December 31, 2024.

The Group also entered into a strategic joint venture partnership with Liberty Latin America parents of FLOW Jamaica, to create a digital microfinance lending company- MyneLend Jamaica Limited of which it has 50% ownership. On August 12, 2024, the entity received its Microcredit license from the Bank of Jamaica and is now currently serving a closed group of FLOW clients providing digital micro lending solutions. The Group, with its partner have made upfront investments to establish this technology-based innovative new business venture in keeping with its business plan. This includes investing in its operational, technical, administrative and infrastructural set up. Post this start-up phase, the entity is expected to efficiently scale its operations as it grows, and provide accretive returns to its shareholders over time. The Group has reflected a loss of approximately J\$114.7 million arising from start up of operations.

The JMMB Jamaica operation, which was significantly impacted by the tight monetary policy, continues to execute strategies to drive core revenues and increase efficiency. These efforts are now showing up with improved financial performance and a positive trajectory as evidenced by Jamaica's contribution to net operating revenue increasing by 12% as well as 48% improvement in operating profit.

The Dominican Republic and Trinidad and Tobago operations continue to produce credible performances contributing 19% and 29% of net operating revenues respectively.

Globally, there has been easing of monetary policy with the lowering of policy rates in Jamaica and the Dominican Republic. In Jamaica, the Bank of Jamaica (BOJ) reduced its policy rate from 7% to 6% between July and December 2024. Similar movements were seen in the Dominican Republic as the Central Bank of the Dominican Republic reduced its policy rate by 75 basis points between October and December 2024, down to 5.75%. The US Fed also reduced the policy rate by 50 basis points over the last quarter, between November and December 2024 to the band of 4.25% - 4.50%.

Despite the recent reduction in interest rates, rates remain elevated as the US Federal Reserve held its policy rate at its recent sitting in January 2025. This policy decision could see the Central Banks in the Dominican Republic and Jamaica who have been reducing policy rates possibly holding their policy rates especially with the uncertainty created within the global economy. Therefore, the expected path of reduction in interest rates are on hold and could continue to keep interest rates at these elevated levels which could continue to compress net interest margins.

In terms of our capital, the Group continues to remain adequately capitalized with the Group, countries and all entities meeting regulatory capital requirements.

The JMMB Group will continue to diversify and grow its business and revenue lines and work towards a more resilient earnings profile in tandem with active cost management to increase operational efficiency, productivity, and profitability.

We would like to extend our heartfelt gratitude to our clients, team members, shareholders, and partners for their unwavering support and trust in JMMB Group. Together, we will continue to build on our successes and pursue new windows of opportunities for growth and impact.

GROUP FINANCIAL PERFORMANCE

Net Operating Revenue

The Group posted net operating revenue of J\$18.13 billion for the nine months ended December 31, 2024, reflecting a decline of 4% when compared to the corresponding period in the previous year. The operating environment continued to be challenging especially as it relates to global interest rates which continued to be sustained at elevated levels. Thus, interest margins remained under pressure and trading activities continued to be adversely affected. Understanding the impact of the environment on the business operations, the Group has doubled its efforts to focus on a more optimal funding mix to drive the business. Consequently, net interest income increased by 6% to J\$8.13 billion. Also, FX trading gains increased by 7% to J\$2.18 billion. However, fixed income trading gains were lower by 28% at J\$3.58 billion.

Also, fees and commission income was flat at J\$3.89 billion. Even though clients continued to demonstrate confidence in our unit trust solutions, there was a wait-and-see approach with respect to capital market transaction as market consensus is that rates will continue to trend downward. Nevertheless, clients continue to demonstrate confidence in the value of solutions and services as evidenced by the strong growth of the loan portfolio.

Segment Contribution

The table below shows the contribution to net operating revenue by segments.

| Net Operating Revenue | J\$'000 | Contribution (%) |
|------------------------------|------------|------------------|
| Financial & Related Services | 5,348,984 | 29% |
| Banking & Related Services | 12,290,764 | 68% |
| Other | 498,897 | 3% |
| Total | 18,138,644 | 100% |

The Banking & Related Services segment contributed J\$12.29 billion which was 68% of operating revenue. This represented a 16% growth when compared to the prior period on account of strong growth in the loan book and

less margin compression.

The Financial and Related Services segment contributed J\$5.34 billion or 29% of net operating revenue and reflected a decline of 33% compared to prior period. This largely reflected elevated interest rates and the attendant market conditions such as tight market liquidity and reduced appetite for emerging markets assets.

Operating Efficiency

Operational efficiency remains a key area of strategic focus for the business. This is managed through a strategic cost management framework that ensures optimal resource allocation to satisfy the operating needs of the business and to drive growth. For the reporting period, operating expenses increased from J\$16.48 billion to J\$17.76 billion and reflected inflationary increases as well as strategic spend related to longer-term initiatives aimed at improving the posture and positioning of the Group.

Going forward, the Group will continue to focus on optimizing its structure through its digital transformation program, standardization, and centralization, as well as optimizing its sales productivity by the continued integration of the sales segments.

Interest in Associated Companies

Sagicor Financial Company Limited (SFC)

For the three-month period ended 31 December 2024, the Group reflected estimated earnings of J\$1.04 billion which reflects JMMB's 24.56% share **(See Note 3)**. Year-to-date earnings approximated J\$1.76 billion as the company continues to produce steady core earnings ranging from US\$24.1 million to US\$25.2 million over its Q2 and Q3 quarters.

MyneLend Jamaica Limited

The Group entered a strategic partnership with Liberty Latin America, the parents of FLOW Jamaica, to create a digital microfinance lending company - MyneLend Jamaica Limited. This partnership includes investing in its operational, technical, administrative and infrastructural set up. On August 12, 2024, the entity received its Microcredit license from the Bank of Jamaica and is now currently serving a closed group of FLOW clients providing micro lending solutions through and end-to-end digital experience from application on the MyneLend app to disbursements via a digital Visa Card as well as through JMMB Money Transfer agents. The Group has a 50% holding and has reflected its share of loss of approximately J\$114.7 million. These results reflect start up operating costs as well as formation expenses.

GROUP FINANCIAL POSITION

Total Assets

At the end of the reporting period, the Group's asset base grew by 4% to J\$704.75 billion. Notably, the loan portfolio grew by 7% to J\$212.90 billion and the credit quality of the loan portfolio continued to be comparable to international standards and the Group continues to maintain enhanced monitoring to mitigate against possible deterioration in credit quality. Further, the investment portfolio increased by 2% to J\$326.93 billion.

In a similar vein, liabilities grew by 5% to J\$649.32 billion. Also, customer deposits rose by 10% to J\$219.65 billion.

Capital

| Company | Regulatory Measure | Minimum Requirement | 31-Dec-24 |
|---|--|------------------------|-----------|
| Jamaica Money Market Brokers Limited | Regulatory capital to risk weighted assets ratio | 10% | 16.35% |
| JMMB Bank (Ja) Limited | Regulatory capital to risk weighted assets ratio | 10% | 12.20% |
| JMMB Bank (T&T) Limited | Regulatory capital to risk weighted assets ratio | 10% | 14.66% |

Over the nine-month period, shareholders' equity increased by 2% to J\$55.43 billion. This was on account of internally generated capital since the Group was profitable over the period. Thus, the Group continues to be adequately capitalized and all individually regulated companies within the Group

continue to exceed their regulatory capital requirements. The performance of the major subsidiaries is shown in the table above.

Off-Balance Sheet Funds under Management

The Group continued to execute on its strategy to provide complete, customized financial solutions for each client. This includes off-balance sheet products such as pension funds and unit trusts. For the period under review, the total invested in off-balance sheet products as at the end of December 2024 stood at J\$222.73 billion compared to J\$187.38 billion as at 31 December 2023.

The JMMB Group in the Community

JMMB Group continued to uphold its commitment to corporate social responsibility (CSR) through a range of impactful initiatives across the Caribbean.

In **Jamaica**, the JMMB Joan Duncan Foundation continued its partnership with the social and economic transformation initiative, Project Star, through the distribution of food and care packages, as part of its annual "Share the Love" initiative. Additionally, participants in Project Star's entrepreneurship cohort received training in the areas of personal and professional development, in the Foundation's "Conversations for Greatness" workshops. During the festive season, the Foundation also supported various Christmas-related events, including a Christmas Football Camp, bringing joy and festive cheer to local communities.

The launch of the Vincent HoSang Venture Competition (UWI VC) and Corporate Social Responsibility Bootcamp took place, with the finals taking place in January 2025. JMMB also supported the Junior Achievement Jamaica Marketing Mavens, providing guidance and empowerment to young entrepreneurs. Furthermore, the JMMB Group sponsored the 2024 National Volunteer Conference, themed "Voice, Visibility & Influence: Creating Lasting Impact!" to promote volunteerism and community engagement.

The JMMB team also participated in various events such as the Pink Run, Run for the Cure, and the Kiwanis of Providence 5K all to raise awareness and support for breast cancer research and survivors.

In **Trinidad and Tobago**, JMMB provided donations and care packages to 15 NGOs, assisting them with supermarket vouchers to purchase essential items for children, senior citizens, and animals in need. In partnership with expert community leaders, JMMB part-sponsored a girls' empowerment program that comprised of sessions focusing on financial literacy for teens, social media safety, and career opportunities in social media and artificial intelligence (AI). This program emphasized the importance of a secure environment, supportive friendships, and mentorship.

Through our participation in their programmes, the JMMB Group continues to foster growth, development, and positive transformation in the communities it serves, reflecting our core values of love and care.

Our operations in the **Dominican Republic** continued its ongoing tradition of providing economic assistance for the provision of milk for Casa MADELAES and Casa La Altagracia, which are two shelters for girls. There was also a contribution of back-to-school supplies made to a local orphanage, La Altagracia. In addition, JMMB Dominican Republic sponsored Yo Tambien Puedo, a non-profit organization focused on the education and stimulation of young adults with cognitive disabilities, who are seeking inclusion and to have an independent and productive life. The goal of the project was to create a space for participants to work in their vision boards and to set achievable life goals.

General

The Directors thank and acknowledge all our loyal, supportive and valuable shareholders, clients and staff who continue to contribute to our ongoing success.

Notes to the Financial Statements **Nine-month period ended 31 December 2024** (Expressed in Jamaican dollars unless otherwise indicated)

2. Summary of Material Accounting Policies

(a) Basis of preparation

The Group's condensed consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS). The condensed consolidated financial statements should be read in conjunction with the accounting policies as set out in Note 2 and 37 of the audited financial statements for the year ended 31 March 2024.

All amounts are stated in Jamaican dollars unless otherwise indicated.

(b) Basis of consolidation

The consolidated financial statements include the assets, liabilities and results of operations of the Company and its subsidiaries presented as a single economic entity.

Subsidiaries are all entities over which the Company has the power to govern the financial and operating policies, generally accompanying a shareholding of more than one half of the voting rights of an investee, where there is exposure to variability of returns and the Company can use its power to influence the returns. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Company controls another entity. Subsidiaries are consolidated from the date on which control is transferred to the Group. They are no longer consolidated from the date that control ceases.

Intra-group transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of impairment of the asset transferred. Accounting policies of the subsidiaries are consistent with those of the Group.

The Group uses the acquisition method of accounting for business combinations. The cost of acquisition is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured at their fair values at the acquisition date, irrespective of the extent of any non-controlling interest. The excess of the cost of acquisition over the fair value of the Group's share of the identifiable net assets acquired is recorded as goodwill. If the cost of acquisition is less than the fair value of the net assets of the subsidiary acquired, the difference is recognised directly in the consolidated profit and loss account.

The Group uses predecessor value (book value) method of accounting for business combinations with entities under common control. Any differences between the consideration paid and the net assets of the acquired entity is recognised in equity.

(i) Non-controlling interests

Non-controlling interests (NCI) are measured at their proportionate share of the acquiree's identifiable net assets at the acquisition date.

Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

(ii) Loss of control

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related non-controlling interest (NCI) and other components of equity. Any resulting gain or loss is recognised in profit or loss. Any interest retained in the former subsidiary is measured at fair value.

Notes to the Financial Statements **Nine-month period ended 31 December 2024** (Expressed in Jamaican dollars unless otherwise indicated)

2. Summary of Material Accounting Policies (continued)

(c) Interest in associated company

Associated company is an entity over which the Group has significant influence but not control, generally accompanying a shareholding between 20% and 50% of the voting rights. Investments in associates are accounted for by the equity method of accounting and are initially recognised at cost. The Group's investment in associated company includes goodwill (net of any accumulated impairment loss) identified on acquisition.

3. Share of profit of associates

The audited results for our associate Sagicor Financial Company Limited, (SFC), was not available at the time of the publication of these results.

Given the unavailability of SFC's audited results, management has elected to use estimate reporting in accordance with IAS 28 – *Associates and Joint Ventures*. Utilizing the provision under IAS 28, management has used SFC's actual financial information for the 9-month period ended 30 September 2024 along with formal guidance provided to the market by SFC on their projected Q4 earnings to estimate the earnings for the quarter ended 31 December 2024.

4. Earning per stock unit

Earning per stock unit ("EPS") is computed by dividing profit attributable to the equity holders of the parent of J\$1,639,306,400 (2023 – J\$16,708,907,000) by the weighted average number of stock units in issue during the period, numbering 1,955,552,532 (2023 – 1,955,552,532).

5. Managed funds

The Group acts as agent and earns fees for managing clients' funds on a non-recourse basis under management agreements. At 31 December 2024, funds managed in this way amounted to J\$222,725,767,000 (2023 – J\$187,376,316,000).

6. Comparative Information

Where necessary, comparative figures have been reclassified to conform to changes in presentation in the current period.
